

M. BRISSON GIVES UP THE JOB.

M. Perier Asked to Form a New Ministry for France.

Perier and Bourgeois Would Not Help Brisson as He Hoped.

(BY ASSOCIATED PRESS.) PARIS, Dec. 2.—M. Brisson, who was selected by President Carnot to form a new Ministry has abandoned the undertaking, and the political situation is more muddled than ever.

M. Brisson, in explaining his failure, says he desired to form a Cabinet that would co-operate with all the factions, but the refusal of M. Perier to enter the combination and the declaration of M. Bourgeois to accept the portfolio of the Interior forced him to abandon his task.

President Carnot has charged M. Perier to form a Cabinet.

MITCHELL CAN'T GET INTO JAIL.

Must Wait and Take Whatever His Appeal Brings to Him.

(BY ASSOCIATED PRESS.) LONDON, Dec. 2.—The magistrate sitting in the Bow Street Police Court has refused to allow Charlie Mitchell, the pugilist, to withdraw his appeal against the sentence of two months' imprisonment at hard labor imposed on him on Dec. 7 last, for brutally assaulting an aged lodging-house keeper.

Mitchell went to the jail last night and offered to surrender himself to serve his sentence, but the Governor of the jail declined to receive him.

Nothing now seems left for him to do but wait the decision of Judge Sir Peter Edlin at the coming Clerkenwell sessions.

Mitchell has strong reasons to dread the result of his appeal, as Sir Peter is a strong-willed and pugnacious judge, who has a bit of the old-fashioned men of Mitchell's type. He is more likely to increase than to decrease the severity of the sentence.

Mitchell says he wants to immediately begin to serve his sentence, in order that he may get out of jail to train Hall and also to train himself for a fight with Corbett.

Mrs. Deacon Sues a Paris Newspaper for Slander.

(BY ASSOCIATED PRESS.) PARIS, Dec. 2.—Mrs. Deacon has brought an action for slander against the *Galignani* newspaper.

The alleged slander consisted in the publication of a report that Mrs. Deacon, in the middle of November, agreed to surrender her eldest child, and to authorize Mr. Deacon to secure a divorce from her in Paris, provided he abandoned the criminal action now pending at Grasse against her for adultery.

According to the paper Mr. Deacon had accepted these conditions for his children's sake, but Mrs. Deacon subsequently withdrew them, forcing him to go on with his criminal suit.

A BOMB BURST IN MADRID.

But Police Lay the Mischief to Boys — All Quiet To-Day.

(BY ASSOCIATED PRESS.) MADRID, Dec. 2.—Though yesterday was a day of considerable excitement in this city, there is nothing whatever to justify the assertion that the population is or has been in revolt.

Most of the excitement was occasioned by a report that the Anarchists had again commenced their outrages. This report had its origin in the fact that a bomb loaded with gunpowder had exploded near the Central Telegraph office. A great noise was made by the explosion, but no damage was done. The police are inclined to the belief that the bomb was placed where the explosion occurred by boys bent upon mischief.

Senor Villaverde, the Minister of the Interior, who resigned yesterday on account of the complications arising from the prosecution of the municipal officials, attended the opera last night. When he was recognized the audience cheered him heartily, showing that their sympathies were with him in the course he had followed.

To-day the excitement has entirely subsided and quiet prevails.

The reports of the Pacific coast storm, which was moving towards the interior, have been missing. The indications are that a storm is developing in the lower Mississippi valley, but it will not reach us till Monday.

ANTI-SNAPPERS' NEW TACTICS.

They Have Given Up the Fight Against Murphy.

Expect to Control Patronage and Starve the Machine.

The Anti-Snappers have given up the fight against chairman Edward Murphy, Jr., for United States Senator as a piece. They will try different tactics to oppose the regular organization in the city and state.

They will attempt to retaliate by starving the machine, of course, the word snapper is used figuratively in a political sense.

What the Anti-Snappers propose to do is to build up a machine of their own, get control of the patronage and refuse to give even a morsel of it to the office-hungry of the opposition.

One way to carry out this plan, it is suggested, is to place Judge J. Cadre Horner, the anti-Snapper leader of Albany, in the cabinet, and make him chief distributor of patronage in the state.

So far the story of the terrible revenge the Anti-Snappers propose to take is startling, but at this point the politicians abruptly break the thread of the tale and ask:

"Leaving out the question of a senatorial courtesy, which has hitherto played an important part, necessary part, in the confirmation of the President's nominees, what advantage can you give that the President-elect will give you?"

"The Anti-Snappers are a stunner, and even the most confident Anti-Snapper has been unable to answer it."

The talk of "turning down Hill and the machine" has filled the Senator's opponents with renewed confidence, and the least is made for them that the Anti-Snappers will be organized throughout the state.

The Anti-Snappers have discovered a document, which they say is a proof that Senator Hill's friends, and in which they were asked to vote against Cleveland on the ground that "a vote for Cleveland is a vote to disgrace the state."

The Anti-Snappers say also that a friend of the Senator furnished the names of his friends to the circulars were mailed.

The Protective Tariff Democratic League was organized as an annex to the Republican National Committee, and this would probably explain the source of the circular, but the Anti-Snappers deny this.

He says he did not write the circular, and does not know where it came from. Neither did he know who furnished the list of names.

Hoboken Policemen Says He Had Orders to Let Them Alone.

It was brought out before Recorder McDonough, in Hoboken, yesterday that a gang of green-goods men are working openly there with every evidence that they are under police protection.

Before alleged green-goods men were brought before Recorder McDonough and Sergeant Faulding testified that when he accused Policeman Thompson of protecting the swindlers, the latter told that headquarters gave instructions to let them alone.

None of the victims appearing the Recorder discharged the prisoners.

HOTEL METROPOLE'S THIEF.

Miller the Man Who Robbed Percy Rockwell.

Held for That and Other Thefts from Guests.

Robert Miller, colored, who up to a few months ago was a window washer in the Hotel Metropole, was held in the Metropolitan Police Court this morning charged with the robbery of \$1,000 from the late Percy Rockwell, and numerous thefts of jewelry from guests of the Hotel Metropole.

A \$1,000 gold certificate was taken from Banker Rockwell's pocket while he lay sick in the hotel in August last. Thefts of jewelry had been numerous about the same time and Miller was suspected, but not enough evidence could be obtained against him to warrant his arrest.

Several weeks ago he gave up his place at the hotel, where he had been for three years, and opened a pool-room at 203 East Ninety-ninth street. Yesterday as he was about to open his place Detective-Sergeant Downing arrested him.

In his possession were found two bank-books, one showing a deposit of \$400, made on Aug. 30, and the other a deposit of \$500, made Aug. 31.

Miller told Inspector McLaughlin that he had bought the certificate from Sam Johnson, a well-known boy at the hotel, for \$15, not knowing its denomination. He carried the bill a month before he discovered its value. Then he put it in bank.

In Miller's possession were also found a handkerchief and diamond and pearl combination ring and scarf, which was identified by Louis Stuchlik as his property. It had been stolen from his room.

A diamond and cat's-eye scarf pin found on the prisoner was claimed by Mr. Green, one of the proprietors of the Hotel Metropole. Miller said these pins were given to him by a girl in bank.

The detective are investigating a number of other thefts committed in the hotel and expect to trace them to Miller.

H'GNIGAL GOES TO SING SING.

His Head Was Bent Down and He Spoke to No One.

Henry G. McConigal, the slayer of John Goodwin, left the Tombs this morning for Sing Sing to begin a sentence of fourteen years.

The old doctor woke up cheerful this morning. He had braced himself up by a good night's sleep, and told the keeper that he felt much better than yesterday. No one called to see him.

At 10 o'clock Deputy Sheriffs Burke and Whalen arrived, and six prisoners were brought out—two women and four men.

Deputy Burke took McConigal by the arm and the little procession moved towards Franklin.

The party boarded a Fourth avenue car. They left the Grand Central at 11 o'clock. McConigal walked with a rather slow step, his head sunk forward on his breast. He scarcely noticed the keepers as he passed them and spoke to no one.

Valkyrie to Be Her Name.

Dunraven's Challenge on the Aurania Due Sunday.

The British Sportsman's Yacht Will Be Designed by Watson.

Most of the details of the challenge of the Royal Yacht Squadron in behalf of Lord Dunraven to the New York Yacht Club for a race for the America's Cup have been secured by an Associated Press reporter, who interviewed Lord Dunraven yesterday in London.

A challenge has been forwarded in my behalf by the Royal Yacht Squadron," said Lord Dunraven. "The name of my vessel will be the *Valkyrie*, cutter-rigged, length of load water 85 feet.

"If the challenging vessel exceeds the length on the load water line as specified in challenge such excess is to count double in calculating the time allowance, but in no case is the challenger to exceed her estimated length by more than 2 per cent, the same rule to be enforced against the vessel defending the cup."

"In that case the only penalty on the difference in the hull on the load water line between the two vessels will be taking or giving ordinary allowance, according to the rules of the New York Yacht Club."

"It is understood and agreed that should the challenging club obtain custody of the cup, it holds open to a challenge under precisely similar conditions to those under which it is held, but it will not be at liberty to give a challenge according to the terms of the deed of 1857."

Lord Dunraven added that the special committee of the New York Yacht Club as to these terms, and that nothing should be done to prevent a race now unless the club as a whole returns to rally the committee's acceptance of the challenge.

The date of the race will be in question, but probably will be in October 1893. G. L. Watson will design the English boat, and the hull on the Clyde and water-line of the *Aurania*, which has in its hull the challenge, is expected Sunday, and the New York Yacht Club will take some definite action next week.

One-third of the island of Conchagua, in the Gulf of Fonseca, seven miles from La Union, was split off by the shock and suddenly sank out of sight.

(BY ASSOCIATED PRESS.) CHATTANOOGA, Tenn., Dec. 2.—A very perceptible earthquake shock was felt here this morning at 3:04 o'clock. The vibrations lasted ten seconds.

Hundreds of people felt the shock here, and it has created a great sensation.
